If your bicycle is stolen, report the theft to UAPD immediately:
(205) 348-5454
1110 Jackson Avenue

Registration is free!
Bicycle Basics

- Always wear a helmet. It might prevent serious injuries in the event of a fall or collision.
- Keep off the sidewalks. They are meant for pedestrians.
- Ride on the right side of the road in the same direction as the traffic.
- Beware of parked cars. Doors may open suddenly.
- When entering traffic, watch for cars and pedestrians.
- Think ahead. Leave room for defensive actions.
- Yield to cars and buses. Even if you think you have the right of way, a car is much bigger, faster and harder to maneuver than a bicycle.
- Check the weather and avoid riding at night if possible. If you must, use reflective equipment and wear reflective, light colored clothing.
- Learn and use hand signals.
- Even though you are riding a bicycle, you must obey all traffic laws.
- “Wheels Up”! The Quad is a pedestrian area. Be sure to dismount and walk your bicycle.
- To protect your bicycle and to prevent theft, lock it. The only acceptable location to lock your bicycle is a bicycle rack. Bicycles locked to anything other than a bicycle rack are subject to removal. Bicycles left in pedestrian pathways or create a safety hazard are also subject to removal. Visit http://bamaparking.ua.edu for a map showing the campus bicycle rack locations.
